

## PROGRAMME OVERVIEW

Time	<i>Friday, June 12, 2015</i>
08:50 – 09:00	Opening and Welcome <i>M. Kneussl, I. Lang</i>
09:00 – 10:30	Epidemiology of drug- and toxin-induced pulmonary hypertension Chairs: <i>M. Humbert, M. Kneussl</i>
10:30 – 11:00	Coffee break
11:00 – 12:30	Anorexigen-induced pulmonary hypertension Chairs: <i>M. Matsubara, M. McGoon</i>
12:30 – 14:00	Lunch break
14:00 – 15:30	Mechanisms of anorexigen-induced pulmonary hypertension Chairs: <i>R. Naeije, W. Seeger</i>
15:30 – 16:00	Coffee break
16:00 – 17:00	Amphetamine-induced cardiopulmonary disease Chairs: <i>A. Torbicki, N. Voelkel</i>
17:00 – 17:30	Discussion and Summary of the day <i>A. Torbicki</i>
19:00 – 22:00	Official Congress Evening*

\* For the Official Congress Evening no sponsor funding was used.

Time	<i>Saturday, June 13, 2015</i>
09:00 – 11:00	Drug- and toxin-induced pulmonary hypertension – toxic oil and chemotherapeutic substances Chairs: <i>P. Dorfmueller, H. Olschewski</i>
11:00 – 11:30	Coffee break
11:30 – 12:30	Drug- and toxin-induced pulmonary hypertension – special subsets Chairs: <i>G. Simonneau, R. Zamanian</i>
12:30 – 12:45	Summary of the meeting Adjourn <i>G. Simonneau</i>
12:45 – 13:45	Lunch

The sessions will be highly interactive by combining presentations with discussions and feedback. Case presentations may be included in the presentations.

**Drug-induced Pulmonary Hypertension – 50 years after the Aminorex tragedy**  
**June 11 – 13, 2015**  
**Billrothhaus Wien**

**FRIDAY, June 12, 2015**

**8:50 – 9:00**

**Festsaal (plenary hall)**

**Opening and Welcome**

*M. Kneussl (AT), I. Lang (AT)*

**9:00 – 10:30**

**Festsaal (plenary hall)**

**Epidemiology of drug and toxin-induced pulmonary hypertension**

*Session Chairs: M. Humbert (F), M. Kneussl (AT)*

**How to organize a case-control study – relationship between a drug and a disease**

B. Bégaud

Universitaire de Pharmacologie de Bordeaux, France

**Guidance on the registration and report of drug-induced PH**

M. C. Chaumais

Hôpital Antoine Bécclère, France

**Pharmacovigilance and post marketing surveillance – a regulatory viewpoint**

H. Herkner

Medical University of Vienna, Austria

**10:30 – 11:00**

**Coffee break**

**11:00 – 12:30**

**Festsaal (plenary hall)**

**Anorexigen-induced pulmonary hypertension**

*Session Chairs: M. Matsubara (JPN), M. McGoon (F)*

**PAH induced by aminorex fumarate**

M. Kneussl

Wilhelminenspital Wien, Austria

**From fenfluramine to benfluorex**

L. Savale

Université Paris-Sud – Hôpital de Bicêtre, France

**Clinical Similarities and differences with IPAH**

N. Voelkel

Virginia Commonwealth University, United States of America

**12:30 – 14:00**

**Lunch break**

**14:00 – 15:30**

**Festsaal (plenary hall)**

**Mechanisms of anorexigen-induced pulmonary hypertension**

*Session Chairs: R. Naeije (BE), W. Seeger (D)*

**Pulmonary vascular pathology induced by anorexigens**

P. Dorfmüller

Hôpital Marie Lannelongue, France

**Role of potassium channels**

H.J. Bogaard

VU University Medical Center Amsterdam, The Netherlands

**Role of serotonin**

M. MacLean

University of Glasgow, United Kingdom

**Drug-induced Pulmonary Hypertension – 50 years after the Aminorex tragedy**  
**June 11 – 13, 2015**  
**Billrothhaus Wien**

**FRIDAY, June 12, 2015**

**15:30 – 16:00**

**Coffee break**

**16:00 – 17:00**

**Festsaal (plenary hall)**

**Amphetamine-induced cardiopulmonary disease**

*Session Chairs: A. Torbicki (PL), N. Voelkel (USA)*

**Methamphetamines and other illicit drugs**

R. Zamanian

Pulmonary and Critical Care, United States of America

**Valvular heart disease and fenfluramine derivatives**

M. McGoon

Mayo Clinic, United States of America

**17:00 – 17:30**

**Festsaal (plenary hall)**

**Discussion and Summary of the day**

*Speaker: A. Torbicki (PL)*

The sessions will be highly interactive by combining presentations with discussion and feedback. Case presentations may be included in the presentations.

**Drug-induced Pulmonary Hypertension – 50 years after the Aminorex tragedy**  
**June 11 – 13, 2015**  
**Billrothhaus Wien**

## SATURDAY, June 13, 2015

9:00 – 11:00

Festsaal (plenary hall)

### Drug- and toxin-induced pulmonary hypertension – toxic oil and chemotherapeutic substances

*Session Chairs: P. Dorfmueller (F), H. Olschewski (AT)*

#### **Toxic oil and pathomechanisms**

M. Gomez-Sanchez  
Cardiologia Hospital Universitario, Spain

#### **Interferons and PH**

P. George  
Imperial College London, United Kingdom

#### **Dasatinib-induced PAH and possible roles of other TKI**

G. Simonneau  
Université Paris-Sud – Hôpital de Bicêtre, France

#### **Pathomechanisms of TKI-induced PAH**

A. Olschewski  
Medical University of Graz, Austria

#### **DLI4 inhibitors and pulmonary hypertension**

P. Thistlethwaite  
University of California, United States of America

11:00 – 11:30

Coffee break

11:30 – 12:30

Festsaal (plenary hall)

### Drug- and toxin-induced pulmonary hypertension – special subsets

*Session Chairs: G. Simonneau (F), R. Zamanian (USA)*

#### **Drug-induced pulmonary veno-occlusive disease**

M. Humbert  
Université Paris-Sud – Hôpital de Bicêtre, France

#### **Persistent pulmonary hypertension of the newborn and SSRIs**

S. Grigoriadis  
University of Toronto, Canada

#### **Tobacco-induced pulmonary vascular disease**

W. Seeger  
Max Planck Institute for Heart and Lung Research, Germany

12:30 – 12:45

Festsaal (plenary hall)

### Summary of the meeting Adjourn

*Session Chairs: M. Kneussl (AT), M. Humbert (F), I. Lang (AT)*

*Speaker: G. Simonneau (F)*

12:45 – 13:45

Lunch

The sessions will be highly interactive by combining presentations with discussion and feedback. Case presentations may be included in the presentations.

**Drug-induced Pulmonary Hypertension – 50 years after the Aminorex tragedy  
June 11 – 13, 2015  
Billrothhaus Wien**
